DETAILED ACTION

RCE filed 8-29-07.

Claims 13-16 are elected.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 14 language is nonsensical. Specifically, "determining determines the subject tissue to be a diameter of blood vessels." Claim amendment is required. Claim 15 language is vague. Explanation of the claim is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Gines (6,033,399).

Art Unit: 3739

Gines discloses adaptive power feedback control and power cycling during blood vessel treatment. Figures 2c and 3c depicts current over time, which matches the Applicant's figure 5 (the exemplary figure for the claimed method).
